Hiroshima J. M. Sci.

CONTENTS

Vol. 21, No. 1, March, 1972

K. TAGUCHI. Hemodynamic evaluation of the prosthetic valve replacement among children under 10 years of age 1-21
T. KURATA and K. TSUGE. A study of congenital constriction band syndrome of the upper extremities 23-34
H. SAITO, S. YAMAMOTO and T. YAMURA. Susceptibility of runyon group 1 mycobacteria to rifampicin 35-40
S. MIYABARA, N. OKAMOTO, T. IKEDA and Y. SATOW. Histoautoradiographic observations on normal and abnormal development of early heart in rat embryo 41-47

Vol. 21, No. 2・3, September, 1972

N. HOSHITA. Rat liver 3β-hydroxy-5β-cholan-24-oic acid dehydrogenase as a liver alcohol dehydrogenase 49-58
K. TAGUCHI, M. HIRAO and I. ITO. An unusual complication of pacemaker treatment: A case report of spontaneous withdrawal of endocardial electrode with the act of vomiting 59-64
K. TAGUCHI, T. WASHIZU, M. HIRAO, M. TAMURA, K. KATO, T. CHATANI, H. YAMASHINA, K. TAKAMURA and T. MOCHIZUKI. Alleviation of post-perfusion complications by autofiltration of cardiotomy blood return in 100 patients: A comparison with sequential controls 65-78
T. IKEDA, N. OKAMOTO and Y. SATOW. Effects of fast neutron irradiation on LDH-and MDH-isoenzymes in developing rat embryos, with special regard to abnormal cardiogenesis 79-89
M. MURAKAMI, A. SHIMASUE, T. TSUBOKURA and T. NAGAYAMA. Studies on the isozymes of leucine aminopeptidase—1. LAP isozymes of the normal human serum— 91-99

Vol. 21, No. 4, December, 1972

N. OKAMOTO, T. IKEDA, Y. SATOW and K. SHIMADA. Early effects of 14.1 MeV fast neutron irradiation on rat embryo, with reference to teratogenesis 101-114
Y. SUGIHARA and F. ARAKI. Carcinostatic activity and side-effects of wheat straw hemicellulose B 115-122
N. TOKI, S. YAMAMOTO and T. YAMURA. Studies on human skin proteinases 123-130
A. SHIMASUE, M. MURAKAMI and T. TSUBOKURA. A specific method for the assay of alcohol dehydrogenase in human liver 131-140
H. SAITO and J. OHSHIMA. Differentiation between *Mycobacterium scrofulaceum* and *Mycobacterium gordonae* by susceptibility to pyronine 141-143
N. OKAMOTO, S. MIYABARA, T. IKEDA, Y. SATOW and T. UENO. Congenital esophageal atresia and tracheo-esophageal fistula—A study of eighteen autopsy cases— 145-155
